PROJECT PLAN Z

ZINJAN archeology -> ZINO particle physics

The Physics STANDARD MODEL Status Report - 2009
Intellectual WAR
Analysis of U. S. MILITARY involvement

Elementary Particle Physics Battle report -> EUROPE

PETRA (Positron Electron Tandem Ring Accelerator) at DESY,
Hamburg, Europe->electron-positron collisions in which hadrons emerge
in the final state are an important class of reactions studied in Margaret
Mead nuclear family anthropology class. Physics anthropology errors->
DESY PETRA -> DP ->General David PETRA (PETRA U.S. Army)
General Petraus of the MARGARET MEAD military
is fighting the modern anthropology WAR in the
geographic region of ancient Babylon civilization.

The Baghdad, Iraq war colliders (electron-positron social force collisions)
of the atomic particles in biological format with U. S. Army Boots with
base 2 data processing legs that STAND (physics STANDARD MODEL)
contribute a great deal to our understanding of atomic particle brain
evolution -> the evolution of political science brain electron circuits.

The PLATO detector and TASSO detection of electron-positron
annihilation events in Hamburg, Europe provide the empirical data
foundation for analysis of the Margaret Mead anthropology war of
the particle physics nuclear family. This is observable with the
General PETRA - ring of atomic biological U.S. ARMY
soldier representatives of the mathematical physics war -> in the
PER region -> PER = Periodic atomic table of anthropology elements
at anthropology battle geography location PER = Persian Gulf.
The positron-annihilation event in European physics gives a mapping to
the position-annihilation event in the Margaret Mead nuclear family
conflict. U.S.ARMY in IRAQ -> the CRADLE of CIVILIZATION
nuclear anthropology battle zone.

Elementary Physics Battle - TRISTAN, JAPAN

The TRISTAN physics experiment has a very large number of detectors in various types of interaction regions. The most unusual detector is the geometric (TRICK) physics trick detector located in Afghani STAN. Thus TRI -----> STAN gives us the TRI STAN -> very large detector of the Margaret Mead nuclear family anthropology conflict ->graduate student anthropology.

THEATER of WAR

Physics Battle – The STANDARD MODEL WAR – Status 2009

Theoretical physics has the STAN military code for STAN.DARD Model. Components are ->Afghani.STAN geography physics map of ASIA

-> Tri STAN physics professors, Tsukuba, Japan

-> Gen. STAN-> STANDARD MODEL physics with STAN. Ford University, California

-> Gen. STAN ->STAN.Ford Linear COLLIDER Menlo Park, California and

-> GEN. STAN -> STAN LEY McChrystal U.S.Army Margaret Mead nuclear family COLLIDER experiment Afghanistan

The physics departments and research facilities deny the existence of the Manhattan Project Margaret Mead nuclear anthropology project component -> the STANDARD MODEL error violations and the SET-UP SCHEME of the U.S.ARMY with false information.

INTELLECTUAL WARRIORS

HELP Wanted – Volunteers needed ☐ Intellectual WAR

The proton property intellectual trust fund that agent ZIN has been entrusted with provides numerous opportunities. The Margaret Mead nuclear family anthropology PROJECT PLAN Z is the master / central focal point for all the different projects.

Wanted -> Are you an engineer or scientist that used to work for the automobile industry? Do you understand the situation? With your

intellectual help and possible financial support from Ford Foundation (automobiles) and Rockefeller Foundation (oil and gasoline) AMERICAN ENGINEERS can regain control of their intellectual and economic world. Learn secrets of GENERAL MOTORS Janesville and CHRYSLER, Kenosha, WIS. and the relationship to Afghanistan WAR with U.S.ARMY officer ->

GENERAL	STAN LEY	McChrystal ->
GENERAL Motors	STANdard Oil	Chrysler
Automobiles	Building	engine
Janesville, Wisconsin	Chicago, Illinois	Kenosha, Wisconsin

Wanted -> if you are a physicist or engineer who got unemployed in the FermiLab Budget cuts in the spring of year 2008; you were set-up. Discover the psychological war behind the FERMILAB 2008 cut -> then the ferrous oxide atomic budget cut in the automotive industry-> with the closing of GM factory, Janesville, Wisconsin with Highway 26 protons of ferrous oxide iron thought -> message waiting for FERmiLAB.

Wanted -> Science authors for joint book ventures.
 -> Research scientists for joint projects to apply for research grants.

MISSION GOAL - Project Plan Z

To organize a world-wide intellectual corporation to represent the multi-faceted universe of the Margaret Mead: SUPER HIGH Z Boson project and its many social engineering components:

- The traditional Universe of tricks and mirrors
- The Inverse UNIVERSE and the Perpendicular UNIVERSE
- The Margaret Mead UNIVERSE nuclear anthropology war
- Help U. S. Military GENERAL DP = Data Processing COMPUTER EARTH WARRIOR GENERAL DP = David Petraus in system 370 Computer Earth

CONTACT US -> principle science researcher Herb Zinser at
